Waters

Baths of Ashbourne

Acrylic bath collections

Cat: Three

now containing ***timeless****.*
heritage inspired luxury bathing.

Waters are based in Ashbourne on the edge of the Peak District National Park, where we take inspiration for the design of our baths from the surrounding natural beauty and ever changing seasons to create stunning hand crafted bathroom centrepieces.

No matter the size of your room or if you enjoy a steaming hot bath, a cool, quick dip or a luxuriously sud-filled soak, we have the perfect bath for your project.

We manufacture baths in Lucite acrylic and composite stone. This catalogue features four collections of acrylic bath tubs, for details on our composite stone collections, please refer to our stone catalogue or website.

The Infinity Acrylic Bath Collection

Picture courtesy of - ***Tom Hodgson***
Location - ***Mam Tor, Castleton, Derbyshire. England***

Collection notes: *Contemporary thin edged freestanding bath tubs with patented in-bath filling, delivering filtered and aerated water to enhance your bathing experience. When coupled to a valve no tap is required, thus creating more space and reducing project budgets.*

Create space, reduce budget and enjoy luxurious in-bath filling...

...Infinity baths are the world's first thin-edged baths with built-in filling, waste and overflow covers in a choice of twelve colours, to provide the ultimate in personal expression.

When coupled to a thermostic mixing valve, Infinity baths allow a cleaner, more contemporary bathroom design, whilst saving the cost of a tap.

Filling the bath with a beautiful stream of warm filtered and aerated water, free of heavy minerals and micro plastics, for the ultimate bathing experience.

Alternatively they can be paired with a freestanding tap for a conventional install.

See it, to believe it!
watch the ad'...

To celebrate the launch of the Infinity collection and demonstrate its ground breaking unique appeal, we've made our first ever multimedia ad'. Available to view on our website, YouTube and all uk premium retailers.

Introducing two12®
Our bath overflow & filling system

Collection notes: *Developed by Waters to provide overflow protection and the ultimate in in-bath filling. We now offer an overflow only and feature packed overflow filler, both can be specified from a choice of twelve colours.*

Available on Space & Natura collections two12®, our patented filling system...

A universal overflow and filling system with a choice of twelve optional colours, to provide the ultimate in personal expression.

Installation is easy with just one or two plumbing connections. Install alongside a tap or couple to a thermostic mixing valve for a cleaner, more contemporary bathroom design.

two12 will fill your bath with a beautiful stream of warm filtered and aerated water, free of heavy minerals and microplastics, for the ultimate bathing experience...

For more info on this revolutionary new product, see our website and social media channels for installation, care and maintenance videos.
