OUR PROMISE TO YOU

Elevate your projects with our curated Priority PVD collection. This range features our four most sought-after colours – Supersteel, Brushed Hard Graphite, Brushed Warm Sunset and Brushed Cool Sunrise – ensuring significantly faster delivery for GROHE bathroom solutions in these timeless hues. By expanding production capacity, we now meet high demand with enhanced speed and reliability. This commitment reflects our dedication to our partnership, providing shorter lead times and premium quality that support your success.

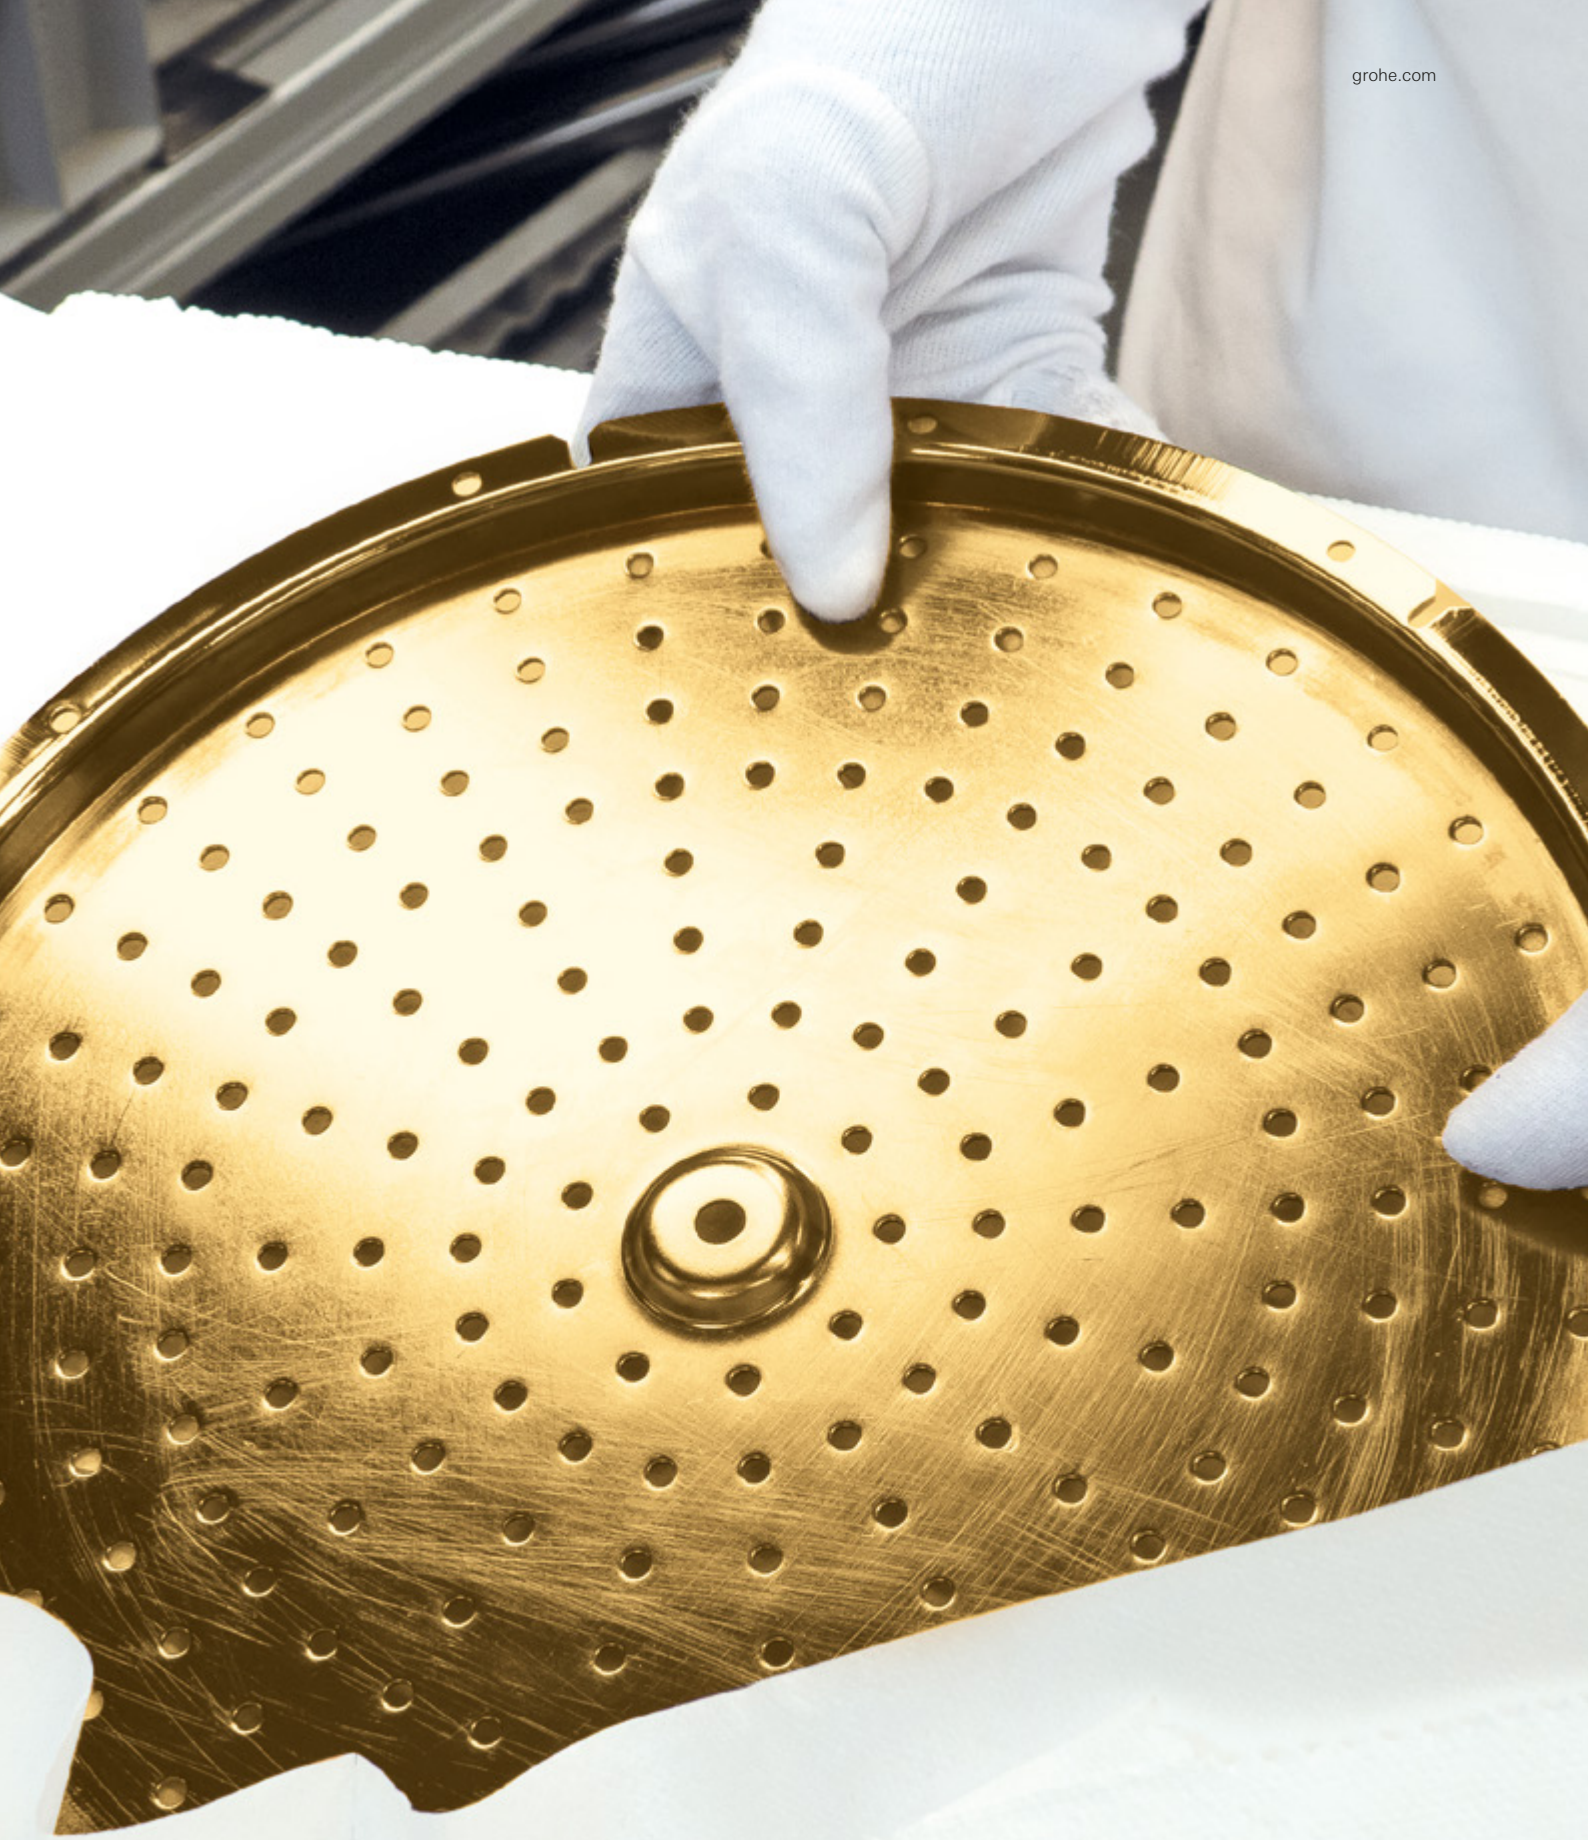

CRAFTSMANSHIP IN EVERY LAYER

When it comes to an exceptional design strategy, the choice of colours is vital. Yet the quality of the finish is equally important. Especially in the world of premium bathroom and kitchen solutions where surfaces must endure, highly resistant finishes are what distinguish good products from truly great ones.

Engineered for the real world
Our PVD surfaces serve as an "armour" of colour", specifically engineered to resist scratches and wear. This advanced level of surface hardness results in long-term abrasion resistance, ensuring the finish remains pristine – even in high-traffic environments.
In addition, the vacuum deposition process creates a highly uniform and strongly bonded surface layer, providing excellent coating adhesion and long-term finish stability to prevent peeling and chipping.

Designed for every home
Our PVD colours are crafted to withstand the rigours of daily life – from the constant friction of cleaning to the sudden impacts of a busy home – shielding against scratching and chipping or losing their vibrant brilliance. And the best thing is: With our versatile spectrum, we offer you complete freedom of choice. Select the colour that suits your project and rest assured that you can create a perfectly cohesive aesthetic across every touchpoint – from taps and showers to thermostats, flush plates, and accessories.

Good to know
GROHE products are designed to deliver pure joy with water for years to come. That's why we subject our surfaces to rigorous testing to ensure they maintain their quality throughout their entire lifespan, even when exposed to common cleaning agents or repeated temperature changes of up to 70 degrees.

SUPERSTEEL

Supersteel is a refined, architectural finish that embodies understated modern elegance. Its matte, stainless-steel aesthetic provides the perfect balance for a range of contemporary textures – from raw concrete and light wood to luxurious white marble. These taps and accessories offer a versatile signature for professionals who value subtle sophistication and industrial design while looking for a neutral tone with a modern twist on classic chrome.

BRUSHED
HARD GRAPHITE

Brushed Hard Graphite is a striking anthracite finish that embodies a sophisticated, urban soul. Its versatility allows it to provide a sharp contrast against white marble or blends effortlessly with light wood tones and raw concrete. From taps to accessories, this colour brings a refined edge to contemporary environments – a timeless signature for those seeking a bold, modern aesthetic that remains elegant for years to come.

BRUSHED
COOL SUNRISE

Brushed Cool Sunrise is an elegant, golden finish that brings a sophisticated warmth to the contemporary bathroom. In monochromatic environments, the finish acts as a radiant focal point, offering a luminous, gem-like effect. Blending modern precision with a vintage soul, these taps and accessories provide a luxurious signature – ensuring the final design is both timeless and strikingly unique.

BRUSHED WARM SUNSET

Brushed Warm Sunset evokes a sense of opulent warmth, adding a touch of extravagance to the bathroom. This bronze-toned finish is designed to stimulate the senses, acting as a striking focal point when paired with high-contrast materials like dark stone or white marble. From taps to accessories, it accentuates every design element with a rich, refined depth. It is a signature of modern luxury – an inviting choice for professionals who wish to create spaces that are both atmospheric and sophisticated.

WHAT CREATES PURE JOY OF WATER?

IT'S WHEN QUALITY, TECHNOLOGY, DESIGN AND SUSTAINABILITY COME TOGETHER.

"Pure Joy of Water" celebrates the freedom to design a space that reflects a truly personal lifestyle. Today's bathroom is a shared masterpiece – a unique signature belonging to both the professional and the consumer. Our curated PVD collection provides the refined palette to realise these tailored visions, blending our expertise in global design trends, customisation and premium quality.
